

QUALITY POLICY
NJSC "West Kazakhstan Marat Ospanov Medical University"
for 2021-2024

The quality policy of the university is aimed at ensuring the competitiveness of the University in the market of educational and medical services, at the introduction of innovative methods and technologies in the training of medical staff, and the provision of high-tech medical services.

This Quality Policy provides:

- training of qualified and in-demand specialists in the local and international labor markets, and scientific and pedagogical personnel on the basis of the integration of science, education and clinics;
- training of highly specialized scientific and pedagogical staff in Master`s and Doctoral studies with a high level of professional competence, with pedagogical and research skills;
- constant increase of continuous professional development by using distance and advanced educational technologies in the educational process;
- strengthening the position of the university in the market of educational and medical services by integrating the educational process with scientific and clinical activities, improving the educational and methodological base of the university;
- strengthening the material and technical base of the educational process through the acquisition of modern scientific and educational equipment and the development of the associated infrastructure;
- maintaining and improving the quality management system of the university in accordance with the requirements of IS ISO 9001: 2015;
- integration into the global educational space, participation in scientific and educational projects;
- a systematic approach to youth policy, the development of student self-government;
- improving the system of interaction between the university and employers for the training and employment of graduates;
- development of partnership and exchange of experience with other universities, research centers and organizations in the field of medicine, health care and environmental protection, including international cooperation, promotion of joint projects with partners to implement their mission and strategic goals.

The quality policy is consistent with the Mission and the University Development Program and is focused on meeting the expectations of consumers in the field of training professional medical staff capable of providing high-quality medical care to the population.

Chairman of the Board-Rector
